HEATED YOGA PROGRAM-INFRA-RED HEAT

Unlike traditional heating methods that heat studio air, infrared heaters safely warm the body from the inside-out, similar to the soft warmth felt on a sunny day.

The result is a comfortable and therapeutic heat that increases flexibility, circulation, stamina and detoxification. You MUST bring your own mat to all heated classes. Please make sure you hydrate before, during, and after class! Hot classes will be between 95-105 degrees. Warm classes will be between 83-93 degrees.

****Warm BodyBalance:** An athletic blend of yoga, Pilates, and Tai Chi focused on building strength and flexibility. The addition of infrared heat will increase circulation, calorie burn, and muscle elasticity.

****Warm Body Bells & Bands** This class will incorporate the use of dumbbells and bands to strength train, build lean muscles, sculpt the body, and burn a lot of calories! Instructor will lead the class through various timed intervals in a controlled temperature studio between 80-84 degrees to increase heart rate and warm the muscles to move faster. Class will end with some glute and/or abdominal work! Come ready to sweat, build, and tone while blasting a lot of calories! SHOES REQUIRED and bring a MAT!

****Warm Flow Yoga:** This practice of flowing posture sequences coordinated with breath will be set to a class temperature of 83-93 degrees. The gentle heat will allow for increased flexibility and circulation in a warm and relaxing environment.

****Gentle Yoga:** Gentle yoga takes a more restorative approach and combines Iyengar with Yoga therapy to focus on anatomical precision and alignment along with breath work. This class is designed to release areas of chronic tension thereby reducing mental and physical stress for all levels of participants.

****Hot Flow Yoga:** This practice is a more vigorous flowing sequence of postures coordinated with breath. The addition of infrared heat will provide increased calorie burn, increased stamina and detoxification. Class temperature will be between 95-105 degrees.

****Hot Pilates Sculpt:** Focus on the "powerhouse" (abdomen, lower back and glutes) of the body, breathing and alignment in this mind-body class based on the principles of Joseph H. Pilates.
